

## Watzmann Thermal Spa Berchtesgaden

### The family-friendly thermal bath

Fun and recreation for all demands and all ages on a water surface of 900m<sup>2</sup>. The discreet architecture with its glass, wood and fresh colours assimilates harmoniously into Berchtesgaden's scenic landscape. This alpine scenery has inspired the thermal bath offers in many respects. Families with small children enjoy their own colourful water-world in the large child`s pool, bigger "kids" can enjoy themselves in the Fun- and Adventure Pool, slip through the 80-metre Blackhole-Slide or do their lanes in the swimming and sports pool. All of this is to find in our **water area**.

Our generous **sauna area** is a true oasis for all those who seek health benefits. Visiting the sauna trains the body's adaptability to changing temperatures: the cosy warmth of the sauna cabin expands the blood vessels of the skin; cooling off afterwards in the cold pool causes the blood vessels to narrow again. While sweating at 80°C for example, you can simultaneously marvel at Berchtesgadens alpine world - one saunas large picture window offers a scenic view on Berchtesgadens town centre and surrounding mountains.

The **brine area** at Watzmann Thermal Spa contains our regions natural salt found, known to promote health and well-being. Enjoy the white crystals beneficial effects in our in- and outdoor saltwater pool, relax in one of our numerous brine-cabins and recharge your batteries.

We look forward to your visit!

### Watzmann Therme GmbH

Bergwerkstraße 54

83471 Berchtesgaden
